

# ENVIRONMENTAL POLICY

## OBJECTIVE:

UAB Stigma is a company, which operates according to the requirements of the quality management system ISO 9001:2015. The company manufactures high-quality plastic and rubber products, provides high quality transportation, commercial intermediation and other services and is highly rated by the customers locally and worldwide.

We will strive to maintain such environmental level of the company's activities that would have minimum negative impact on the environment while using our equipment, introducing new products and new technologies.

## THE TOP MANAGEMENT OF THE COMPANY UNDERTAKES TO:

- constantly improve the company's environmental management system in accordance with ISO 14001:2015 standard requirements;
- constantly demonstrate leadership and commitment to the environmental management system;
- comply with all legal acts related to environmental protection requirements;
- constantly improve the environmental performance of the company, introducing the pollution prevention measures as appropriate and reducing the company's environmental impact;
- apply the environmental protection requirements in the currently pursued fields of activities as well as ones that are new for the company;
- carry out the monitoring of operations and pollution;
- save and use efficiently the resources in the company's operations;
- carry out properly the collection and safe storage of waste generated by the company before transferring them to the recycling companies and strive for zero-waste production where possible;
- exchange information with clients and suppliers openly and constructively, while promoting their interest in environmental protection and seeking to involve them in discussions about the arising environmental problems;
- identify and continuously analyse the requirements of customers and stakeholders in the field of environmental protection and strive for their implementation;
- constantly improve the qualification of employees, familiarise them with environmental requirements, and clearly allocate the limits of employee responsibility for the implementation of environmental protection requirements;
- publicise the environmental policy.
